I. GENERAL INFORMATION

This application packet was prepared to aid you in submitting the materials needed for a permit to sell fireworks at retail in unincorporated Clark County. You must contact any other jurisdiction where you wish to sell for their specific requirements. Both the state and the local fire marshal regulate the sale of fireworks. Applicable state laws include RCW 70.77 and WAC 212-17. In unincorporated Clark County CCC 5.28 also applies. Under special circumstances provisions of the uniform fire or building codes may also apply. We strongly advise all applicants to become familiar with all of the applicable codes that regulate firework sales. If questions arise while preparing the materials, please contact the Clark County Fire Marshal as early as possible using one of the methods or numbers detailed on the cover sheet.

II. REQUIRED SUBMITTAL MATERIALS

The following materials must be submitted at the time of application for a retail fireworks permit:

1. A completed application form.
2. A Valid Washington State Retail Fireworks License.
3. A certificate(s) of insurance.
4. A \$100 application / permit fee.
5. A \$500 dollar debris deposit or a completed escrow agreement (*escrow must be on escrow agent's letterhead*).
6. A site plan (if required - see instructions) along with parcel number of the site.
7. An internal floor plan (if required - see instructions).
8. Property owner's permission or sales agreements (if required - see instructions).

III. APPLICATION INSTRUCTIONS

The following instructions are to assist you in completing your permit application. Headings in these instructions are the same as on the permit application. In completing the application form, be sure to fill in all of the spaces and check all of the boxes that apply.

APPLICANT INFORMATION

- ☐ Indicate whether this is a new application or a renewal by a previous permit holder.
- ☐ Provide the name of the applying group, organization or person. Every organization must identify a responsible party for the permit. Enter the name of the person responsible for the permit and subsequent operations. Enter "SAME" if the applicant is also the responsible party. Be sure to provide complete legal names (last, first and middle initial) together with the correct date of birth as this information is needed to verify permit eligibility under CCC 5.28.090. ***APPLICATIONS WITHOUT THIS INFORMATION CANNOT BE ACCEPTED.***
- ☐ Provide a mailing address and phone number for the applicant or responsible party. This information is critical as we rely on it if we have to contact you.

SALES AND STORAGE INFORMATION

- ☐ Indicate the address of the intended sales site.
- ☐ Identify the property owner of the sales location. If the property owner is other than the applicant, provide a written statement of permission for the fireworks sales activity from the property owner with the application.
- ☐ Indicate whether the structure used for fireworks sales will be a stand, a tent or another type of structure.
- ☐ If you are renewing your application and will be setting up just as you did last year we can use your old site plan – provided that nothing has changed. If you are submitting an application for the first time or if something has changed either on the site or in the way you will be selling, submit a new site plan.

The site plan must include:

- The dimensions of the stand or other structure used for sales. (Example- 8'x16' plywood stand) or other structure used for sales.
- The dimensions between the sales structure and adjacent property lines, nearby buildings, roads and accessways, parking and fireworks storage.

Clearly indicate where the stand is located on the property and where any necessary barricades will be located. The plan doesn't have to be drawn to a specific scale but should be neat and readable. Approximate dimensions are OK – they will be verified on the site at the time of inspection.

- ☐ If you intend to use a tent or other structure where customers will be allowed inside you must prepare and submit an interior layout plan.

The interior layout plan must include:

- The location and dimension of all exits.
- The location and dimension of all aisles leading to exits.
- The location and dimension of display areas.
- The location and dimension of all storage areas.
- ☐ Indicate whether the fireworks will be stored on or off site.
- ☐ Indicate whether the fireworks will be stored in the sales structure, a detached building or some other type of structure.
- ☐ Tell us what the other structure used for storage is.
- ☐ Provide the address and property owner information for any off-site storage.
